

# Lunch & Learn

Wednesday, March 8<sup>th</sup>, 12-1pm in TMEC 306

The ICCB-Longwood Screening Facility is providing an introduction to the Intellicyt iQue, a high-throughput FACS platform capable of rapid, high content, multiplexed analysis of cells and beads in suspension.

Please join us for a talk about the instrument and a free pizza lunch courtesy of **intellicyt**.

Please RSVP to [stewart\\_rudnicki@hms.harvard.edu](mailto:stewart_rudnicki@hms.harvard.edu) or scan the QR code to send a quick RSVP. Thanks!
